Call for Posters

Authors are invited to submit proposals for poster presentations of recent results, work in progress, new ideas, and other smaller projects which may be of interest to the general community, but which are still too speculative, incomplete or not of sufficient extent to warrant a (full or short) paper. We encourage submissions from all areas related to computer graphics, such as rendering, modeling, visualization, perception, animation, simulation, virtual reality, and imaging. Submissions from computer vision and machine learning areas are also invited to the Posters track.

One or more authors of accepted posters are expected to be physically present at the conference, to discuss their work and answer questions during the poster session. Accepted posters and the final papers will be included in the digital media with the proceedings and other material.

Timeline

Eurographics 2024 Posters Track Timeline

- ~~February 23~~ March 1, 2024 — Submission deadline
- ~~March 11~~ March 18, 2024 — Notification
